The first objection to her admission under her present constitution was that she came with two representatives. This objection was removed by reference to he course pursued in the case of Georgia and of Texas; and by a proper understanding of the amount of population necessary to entitle a state to such representation—it was not necessary that a state should have double the population necessary to entitle her to a single representative before she could elect two repatives. She was entitled to the second ntative whenever she had an excess the seventy thousand, if a moiety. In the course of his explanation of a clause the the territorial bill prohibiting the territorial legislature from legislating in respect to African slavery, Mr. Clay intimated his full onviction that slavery is abolished throughout New Mexico by the edict of a Dictator, the constitution of the people, and the act of their legislatures. The provision alluded to in the territorial bill would leave the Mexican law in full force, while, at the same time, it gave the slature the power to act as might be deem-

Turkey-The Hungarian Refugees.

The Tribune translates from the correspondence of the Vieuna "Wanderer" the following letter, dated Constantinople, April 9: The Vienna Cabinet resumes its alliance with Turkey, because it has attained every thing which it could wish after the refusal of the extradition, that is to say, the perfect security that the fugitives can do no further injury. They form a powerful weapon of defence in the hand of Turkey, who will not let them go, so long as there is any prospect of danger. Meanwhile their fate is decided, and they were first informed of it in Kiutahia .-As we learn, they are to be permitted to go freely from one city to another, within a cerof the chiefs, and a sub-officer for all others.

The subsides allowed to them are very considerable. Kossuth is to receive 10,000 piasters a month, the General 4,000. The volunteers who followed merely from attachment to their chiefs, are to be supported by them. The government gives them 20 plasters a day only to Kiutahia. A serious illness of Kossuth and a violent snow storm, detained the caravan in their journey, which they were to have commenced some weeks since. A letter receieved from Russia, of March 3, states nothing definite about their departure. It is said here that the American Minister, Mr. Marsh, has proposed to the Porte to send the refugees to America at the expense of his government, where they should remain on their parole of honor and not leave the country for a year.

The French and English Ministers had nothing to offer against the proposal, it was agreed to by the Austrian Ambassador, who would rather have the fugitives in the new world than in the neighborhood of Austria, but it was rejected by the Hungarians themselves. The report seems strange to us, and inconsistent with numerous protestations of the Magyars towards the refugees.

Y. COV.

Old Dr. Jacob Townsend, Genuine Townsend Sarsaparilla, Old Dr. Townsend is now about 7D years of age, and has ten been known as the AITTHOR and DISCOVERER of the GENUINE ORIGINAL "TOWNSEND SARSAP, RILLA!" Being poor, he was compelled to family its manufacture, by which means it has been kept out of market, and it made crummaribed to those only who had proved its worth, as known its value. It had reached the ears of many, pa-withing

Now is it not harrible to make and sell, and infinitely were SOURING, FERMENTING, ACID "COMPOUND" OF S. SOURING, FERMENTING, ACID "COMPOUND" OF S. P. TOWNSEND,
and yet he would fain have it understood that Old Dr. Jacob Townsend's Genuine Original Sursoparilla, is an IMITATION of his inferior preparation?
Heaven forbid that we should deal in an article which would bear the most distant resemblance to S. P. Townsend's article?
We wish it understood, because it is the absolute truth, that S. P. Townsend's article and old Dr. Jacob Townsend's Sarasperilla are factored-side aport, and infinitely distantiary, that they are unlike in every particular, having not one single thing in common. common.

As S. P. Townsend is no doctor, and never wax, is no chunch, no pharmaceutist—knows no more of medicine or disease than any other common, uncelentific, improfessional mass, what guarantee can the public have that they are riceiving a genuing scientific medicine, containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTSO Disease instead of health!

But what else should be expected from one who knows asking comparatively of medicine or disease! It requires a person of some experience to cook and serve up even a common determine the cook and serve up even a common determined. WEAK STOMACHS AND ENPERBILED SYSTEMS.

SAPARILLA EXTRACT or SYRUP." But such is not the SAPARILLA EXTRACT or SYRUP." But such is not the article known as the
GENUINE OLD DR. JACOB TOWNSEND'S
SARSAPARILLA.

This is so prepared that all the inert properties of the Sersiparilla root are first removed, everything capable of becaming acid or ferromatation is extracted and rejected; thus every particle of medical virtue is secured in a pure and constituted form; and thus it is rendered incapable of lesing any of he remains and healting properties. Propured in this way, it is made the most powerful again in the
Ource of Izinumerable Diseases.

Hence the reason why we hear commendations on every side in its favor by men, women, and children. We find it decay wonders in the cure of
